### Policy Statement

---

This policy provides that the universities (academic institutions) of The Texas A&M University System shall report, on an annual basis, the status of each low-producing degree program to the chancellor and the Board of Regents (board).

---

### Reason for Policy

---

The chancellor and the board shall be informed of the status of each academic institution's low-producing degree programs resulting from the annual review by the Texas Higher Education Coordinating Board (coordinating board).

---

### Procedures and Responsibilities

---

The coordinating board conducts an annual review of degree programs at institutions of higher education to determine which are low-producing degree programs because they do not meet minimum standards for the number of degrees awarded.

Academic institutions will prepare a report of the coordinating board's review to the chancellor and board. The report will include supporting documentation for requests to consolidate degree programs and temporary exemptions.
