### Policy Summary

---

This policy provides that the universities (academic institutions) of The Texas A&M University System shall report, on an annual basis, the status of each low-producing degree program to the chancellor and the Board of Regents (system board).

---

### Policy

---

The coordinating board conducts an annual review of degree programs at institutions of higher education to identify any low-producing degree programs that do not meet minimum standards for the number of degrees awarded.

Academic institutions will prepare a report of the coordinating board's review to the chancellor and system board. The report will include supporting documentation for requests to consolidate degree programs and temporary exemptions. The chancellor will annually report to the committee on academic and student affairs the disposition of programs identified as low producing (discontinued, consolidated, or granted temporary exemptions).
