Policy Summary

Tuition and fees for members of The Texas A&M University System (system), including any exemptions or waivers, must be approved and administered in accordance with this policy. This policy provides a description of the approval process regarding tuition and fees, including the authority delegated to the chancellor and any further delegation to member chief executive officers.

Policy

1. GENERAL

1.1 The chancellor, on the recommendation of the presidents of the academic institutions, will present annually for Board of Regents (board) approval (or as otherwise directed by the board), recommendations concerning any proposed new fees and any adjustments (increases or decreases) in current student tuition and fees for the ensuing academic year, with full justification for all proposed changes. As part of the recommendation, a complete disclosure of the fee structure of each academic institution, current and recommended, will be included. All proposed changes will be made in full compliance with all statutory requirements such as relating fees to costs or securing student consent, and any other requirements that may be imposed by law or by the board.

1.2 In accordance with Texas Education Code, Section 54.0513 and with the approval of the chancellor, each president is authorized to hold a public hearing at the academic institution regarding any proposed increase in designated tuition. The hearing will be held prior to submitting the tuition and fee recommendations to the chancellor. At the meeting at which tuition and fee recommendations are presented, the board will receive input from students and the presidents, and will then determine the tuition and fees for the ensuing year. This meeting and the institutional hearings will constitute the public hearing required by Section 54.0513, paragraph (f) of the Texas Education Code.

1.3 The presidents are authorized to establish and collect student fees for study abroad programs and field trips, and to amend such fees as necessary, provided that fees so
established or amended will be submitted annually for confirmation by the board at the meeting at which tuition and fee recommendations are presented.

1.4 The presidents of the academic institutions, the vice chancellor for agriculture and life sciences, the vice chancellor for engineering and national laboratories, and the vice chancellor for health services, by delegation from the board, may establish fees for non-state funded courses, including continuing education courses, extension courses, correspondence courses, or other self-supporting courses for which the member does not collect tuition or receive formula funding. The fee set for each course must be in an amount sufficient to recover the costs of providing the course. Each member charging a fee under this authority must file a report following the close of each fiscal year with the chancellor who will report to the board. The report must list the cumulative total of all such courses offered, the number of participants, the total income received, the total expenses incurred, a description of the fee structure and the institutional philosophy of all such courses. Each member will be required to maintain the detailed information on each course for internal or external review.

2. EXEMPTIONS AND WAVERS

2.1 All military personnel assigned to full-time Reserve Officers’ Training Corps (ROTC) duty in the military science department of a system academic institution, who enroll as students in any system academic institution, will be granted the same exemption from payment of student fees as is granted full-time system employees.

2.2 The board finds it is in the best interest of the system and the state to delegate to the presidents the authority to grant exemptions and waivers from tuition, fees, and other charges as mandated by statute.

2.3 Exemptions and waivers that are permitted by statute, but not mandated, may be implemented within statutory limitations by the respective presidents upon approval of the chancellor or pursuant to the delegation of authority by the chancellor.

3. PAYMENT PLANS

The board finds it is in the best interest of the system and the state to delegate to the presidents the authority to establish and administer tuition and fee installment payment plans and financial aid programs as mandated by statute. Installment payment plans and financial aid programs must be sustainable and beneficial to the students.
