Regulation Statement

The use of Electronic and Information Resources (EIR) supports the overall operation and mission of The Texas A&M University System (system). Ensuring such resources are accessible is not only good practice, but also critical to the success of the system. In addition, it is required by state and federal laws.

Reason for Regulation

System Policy *08.01, Civil Rights Protections and Compliance*, provides that no individual will, on the basis of disability, be excluded from participation in, or be denied the benefit of or be subjected to discrimination under any system program or activity. This regulation provides guidance to members to ensure compliance with applicable accessibility requirements.
