

34.05 Smoking

Approved February 27, 1995 (MO 44-95)
Revised September 26, 1997 (MO 181-97)
Revised September 23, 1999 (MO 226-1999)
Revised December 5, 2008 (MO 407-2008)
Next Scheduled Review: September 21, 2013

Policy Statement

The Texas A&M University System (system) has a vital interest in maintaining a healthy and safe environment for its students, faculty, staff and visitors while respecting individual choice. Consistent with these concerns, this policy directs each system member to create a rule restricting smoking in its facilities.

Reason for Policy

Public health and environmental agencies have found that there is no risk-free level of exposure to secondhand smoke, and that nonsmokers who are exposed at home or work are subjected to a significantly increased risk of developing health related complications.

Procedures and Responsibilities

Each system member chief executive officer shall establish, for each system facility under his or her control, a rule which restricts smoking within such facilities in a manner which protects the health of employees, students and clientele, and shall submit such rule for approval by the chancellor and the Board of Regents.

Definitions

Smoking – the use or carrying of a lighted pipe, cigar, cigarette, tobacco or any other type of smoking substance.

Secondhand smoke, also called Environmental Tobacco Smoke – a mixture of the smoke given off by the burning end of a cigarette, pipe, or cigar, and the smoke exhaled by smokers.
